

COMPLETED Western and Central Pacific Ocean tuna - purse seine (Dongwon Industries)

Overview

FIP Description

The FIP is the Dongwon Industries Pacific Ocean tuna purse seine (FAD-associated sets) fishery targeting skipjack (*Katsuwonus pelamis*), bigeye (*Thunnus obesus*) and yellowfin (*T. albacares*) tunas. The fishing vessels are flagged to the Republic of Korea, Kiribati and Tuvalu and operate in the western and central Pacific Ocean (WCPO) high seas and the following Exclusive Economic Zones (EEZs): PNA countries (Federated States of Micronesia, Palau, Marshall Islands, Kiribati, Nauru, Papua New Guinea, Solomon Islands, Tuvalu and Tokelau as a party to the Palau Arrangement) and the Cook Islands. The fishery is managed regionally by the Western and Central Pacific Fisheries Commission (WCPFC).

The FIP considers the following Units of Assessment (9 in total):

- Western and Central Pacific Ocean (WCPO) stocks of skipjack, bigeye and yellowfin, caught by purse seine on FAD associated sets and managed by national management of PNA countries and regionally by WCPFC (three UoAs).
- Western and Central Pacific Ocean (WCPO) stocks of skipjack, bigeye and yellowfin, caught by purse seine on FAD associated sets and managed by Cook Islands national management and regionally by WCPFC (three UoAs).
- Western and Central Pacific Ocean (WCPO) stocks of skipjack, bigeye and yellowfin, caught by purse seine on FAD associated sets on the high seas managed by national management of the Republic of Korea and regionally by WCPFC (three UoAs).

How is this FIP Doing?

Current Status:

25%

Actions Overview This shows the proportion of actions that are behind schedule, on track, completed, or not yet started.

Behind	On Track	Complete	Future
43%	14%	43%	0%

FIP Objective(s)

- Achieve sustainable stock status for all target tunas that is consistent with the Maximum Sustainable Yield (MSY) and management systems strengthened to achieve this.
- Strengthen ETP and FAD management and information in the fishery.
- Achieve MSC certification and the objectives above by 2025.
