

INACTIVE North Pacific blue shark and swordfish - longline

Overview

FIP Description

The Kesennuma Distant-water Fishery Cooperative (KDFC) is one of a number of fisheries cooperatives in Japan, with most members residing in Kesennuma City, Miyagi prefecture. The fishery targets blue sharks and swordfish caught by offshore and distant-water longline fisheries (by the names of license issued) by KDFC members within Japan's EEZ and the Western Central Pacific Fisheries Commission (WCPFC) convention area.

How is this FIP Doing?

Current Status:

Actions Progress This shows the proportion of actions in the workplan that the FIP has completed.

Actions Overview This shows the proportion of actions that are behind schedule, on track, completed, or not yet started.

Behind	On Track	Complete	Future
100%	0%	0%	0%

Red Indicator Progress This shows the proportion of actions specifically addressing red indicators that are behind schedule, on track, completed, or not yet started. This helps users understand the progress the FIP is making on the biggest challenges in the fishery.

Behind	On Track	Complete	Future
--------	----------	----------	--------

100%	0%	0%	0%
------	----	----	----

FIP Objective(s)

The objectives of the fishery by 2025 are to:

- Implement a harvest strategy and harvest control rule that is robust and responsive to target stock abundance for blue shark
- Have a fishery that minimizes impacts on ETP species and demonstrates no shark finning is occurring within the UoA
- Demonstrate that the fishery management decision-making process applies the precautionary approach
- Achieve a level of performance consistent with an unconditional pass of the MSC Standard
