

PROSPECTIVE Vietnam Ca Mau mixed species - purse seine and trawl

Overview

FIP Description

Fishmeal production companies of Ca Mau and Bac Lieu provinces, along with their customers who are aqua feed corporations and Kim Delta Vietnam, jointly launched the Ca Mau Multispecies FIP - Vietnam in August 2022. December 2022, a quick assessment report on the status of multi-species trawl fisheries in Ca Mau Province, the Ca Mau Fishery Improvement Project Plan and the Partnership Agreement were released to all partners. In March 2023, the partners officially agreed to conduct a multispecies fishery gap assessment in Ca Mau province. The FIP plans to be recognised by two international schemes Fishery Progress and MarinTrust, respectively as Basic FIP and Multispecies FIP Pilot no later than March 2024.

FIP partners conducted meetings and workshops to mobilize support for FIP from the Ca Mau provincial government and other Ca Mau seafood producer and exporter partners. The People's Committee of Ca Mau province has approved the FIP in writing and assigned the Department of Agriculture and Rural Development of Ca Mau province (in July 2023) to coordinate with Kim Delta Vietnam to implement the FIP.

How is this FIP Doing?

Current Status:

Actions Progress This shows the proportion of actions in the workplan that the FIP has completed.

FIP Type

Prospective

FIP Stage

Stage 0: FIP Identification

Start and Projected End Dates

Species

Common Name

Buccaneer Anchovy

Scientific Name

Encrasicholina punctifer

Common Name

Goldstripe Sardinella

Scientific Name

Sardinella gibbosa

Common Name

Yellowtail Scad

Scientific Name

Atule mate

Common Name

Japanese Scad

Scientific Name

Decapterus maruadsi

Common Name

Splendid Ponyfish

Scientific Name

Leiognathus splendens

Gear Type

Purse Seine

Trawl

Location

FAO Major Fishing Area

[Area 71 \(Pacific, Western Central\)](#)

Exclusive Economic Zones

Country

Viet Nam

Geographic Scope

Southwest Area of Vietnam (the coastal waters, inshore waters under administration Ca Mau province) and waters from the inshore route to the outer boundary (offshore) of Vietnam's exclusive economic zone (EEZ)
