

COMPLETED US Texas shrimp - otter trawl

Overview

FIP Description

In 2008, a FIP was announced for the Texas shrimp fishery led by the Sustainable Fisheries Partnership (SFP).

A public work plan for the fishery was published in 2012 with the goals of 1) reducing bycatch through fine-tuning turtle excluder devices (TEDs) and bycatch reduction devices (BRDs), and 2) evaluating NOAA's observer program coverage. Both of these actions are still ongoing within the Texas Shrimp FIP. Fine-tuning of TEDs has shown substantial success in helping industry reduce sea turtle bycatch, with [NOAA reporting](#) an increase in TED effectiveness from an average of approximately 89% in 2014 to over 95% in 2016 and 2017. SFP's Shrimp Supplier Roundtable continues to engage NOAA regarding observers on a regional level.

In 2016, SFP handed over leadership of the FIP to the Audubon Nature Institute's Gulf United for Lasting Fisheries Program (G.U.L.F.), a regional group that is able to work closely with industry members in Texas to further enhance the sustainability of the fishery. Initially, the second stage of the Texas Shrimp FIP started as a Basic FIP. However, based on participant needs, it transitioned into a Comprehensive FIP as outlined by the Conservation Alliance for Seafood Solutions.

FIP Objective(s)

To improve the sustainability of the fishery to a level of MSC certification by end of 2022

FIP Type

Comprehensive

FIP Stage

Stage 4: Improvements in Fishing Practices or Fishery Management

Start and Projected End Dates

June, 2016 -
December, 2022

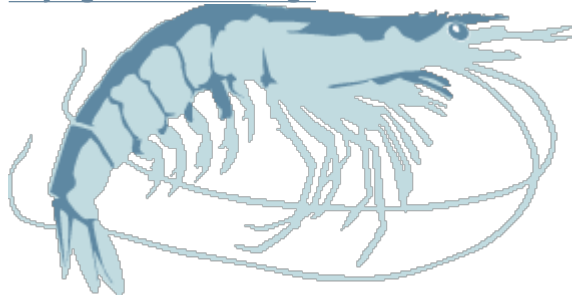

Species**Common Name**

Brown Shrimp

Scientific Name

Farfantepenaeus aztecus

Common Name

White Shrimp

Scientific Name

Litopenaeus setiferus

[Buying Guide](#) [Link Image](#)

White Shrimp
Buying Guide

Gear Type

Otter Trawl

Location

FAO Major Fishing Area

Area 31 (Atlantic, Western Central)

Exclusive Economic Zones

Country

United States of America (the)

Geographic Scope

Texas state waters, federal waters of the Gulf of Mexico

Estimated Total FIP Landings

25840 metric tons

FIP Leads

Organization Name

Audubon Nature Institute's Gulf United for Lasting Fisheries
