

INACTIVE Gambia sole - bottom set gillnet

Overview

FIP Description

Note: This FIP went inactive on April 2, 2019.

The National Sole Fishery Co-Management Committee (NASCOM), The Department of Fisheries of the Ministry of Fisheries, Water Resources and National Assembly Matters of The Gambia and the Atlantic Seafood Company Ltd. are committed partners to this FIP. NASCOM has been delegated management responsibility and exclusive use rights to the sole fishery and associated marine catfish fishery in the artisanal zone (out to 9 nautical miles along the Atlantic coast) in a gazetted Sole Fishery Co-Management Plan. NASCOM is coordinating this FIP.

How is this FIP Doing?

Current Status:

Actions Progress This shows the proportion of actions in the workplan that the FIP has completed.

Actions Overview This shows the proportion of actions that are behind schedule, on track, completed, or not yet started.

Behind	On Track	Complete	Future
100%	0%	0%	0%

Red Indicator Progress This shows the proportion of actions specifically addressing red indicators that are behind schedule, on track, completed, or not yet started. This helps users understand the progress the FIP is making on the biggest challenges in the fishery.

Behind	On Track	Complete	Future
100%	0%	0%	0%

FIP Objective(s)

The objective of the Gambia Sole Fishery FIP is to implement a developing region Fishery Improvement Project (FIP) for the Gambian Sole Fishery based on the findings of the 2015 Marine Stewardship Council (MSC) Pre-assessment and by following the Conservation Alliance for Seafood Solutions (CASS) guidelines for a comprehensive FIP.

By July 2022, the FIP aims to make progress on addressing the gaps identified in the 2015 MSC Pre-assessment as follows:

For Principle 1, five performance indicators related to data limitations for stock assessment and establishing reference points in order to develop harvest control rules.

For Principle 2, eight performance indicators for secondary species and ETP species information, management, and monitoring

For Principle 3, one performance indicator for compliance and enforcement

FIP Type

Comprehensive

FIP Stage

Stage 3: FIP Implementation

Start and Projected End Dates

August, 2017 -
July, 2022

Species

Common Name

Common Sole

Scientific Name

Dagetichthys cadenati

Common Name

Common Sole

Scientific Name

Cynoglossus senegalensis

Gear Type

[Bottom Gillnet](#)

Location

FAO Major Fishing Area

[Area 34 \(Atlantic, Eastern Central\)](#)

Exclusive Economic Zones

Country

Gambia (the)

Estimated Total FIP Landings

1250 metric tons
