

INACTIVE Indonesia Maros blue swimming crab - trap

Overview

FIP Description

Note: This FIP went inactive on May 29, 2019.

The Maros Regency blue swimming crab trap FIP has been initiated as a supply chain driven project and is unique in this perspective. By recording accurate daily catch data from the fishers, the FIP is able to track the health of the fishery over time and by knowing the health of the fishery, FIP stakeholders can exert influence on improving the fishery, the community, and the quality of the product. The Maros Regency Blue Swimming Crab FIP is endeavoring to engage all stakeholders in the fishery, including other industry members, government entities, and academia to expand the scope and depth of this project.

How is this FIP Doing?

Current Status:

% of Indicators Tracked Basic FIPs may focus their workplans on a subset of the indicators. This shows the proportion of total indicators the FIP is working on.

Actions Progress This shows the proportion of actions in the workplan that the FIP has completed.

Actions Overview This shows the proportion of actions that are behind schedule, on track, completed, or not yet started.

Behind	On Track	Complete	Future
100%	0%	0%	0%

Red Indicator Progress This shows the proportion of actions specifically addressing red indicators that are behind schedule, on track, completed, or not yet started. This helps users understand the progress the FIP is making on the biggest challenges in the fishery.

Behind	On Track	Complete	Future
100%	0%	0%	0%

FIP Objective(s)

- Engage all fisher groups and supply chains in the fishery by the middle of 2018.
- Organize over ¾ of fishers in the fishery into associations by the end of 2018.
- Reduce the capture of undersized crab thru improved gear-type and develop mechanisms for the return of berried (gravid) females to the fishery by the end of 2019.
- Development of fishing community-led, implemented and enforced no-take zones and partial fishery closure times by the end of 2020.

FIP Type

Basic

FIP Stage

Stage 2: FIP Launch

Start and Projected End Dates

December, 2017 -

December, 2021

Species

Common Name

Blue Swimming Crab

Scientific Name

Portunus pelagicus

Gear Type

[Pot/Trap](#)

Location

FAO Major Fishing Area

[Area 71 \(Pacific, Western Central\)](#)

Exclusive Economic Zones

Country

Indonesia

Geographic Scope

Makassar Strait, Maros District, South Sulawesi

Estimated Total FIP Landings

120 metric tons
