AP2HI	Asosiasi Perikanan Pole & Line dan Handline Indonesia (Indonesian Pole & Line and Handline Fisheries Association)
CPIB	Cara Penanganan Ikan yang Baik ( Fish Good Handling Practise )
DKP	Dinas Kelautan dan Perikanan
FMA	Fisheries Management Area
PL	Pole & Line
PPN	Pelabuhan Perikanan Nusantara
SKPI	Sertifikat Ketrampilan Penanganan Ikan
SKPPI	Sertifikat Kelayakan Penanganan dan Penyimpanan Ikan

## EXECUTIVE SUMMARY

AP2HI and IPNLF as partner also commits to support member on Capacity Building & Training on how to minimize environmental impact from the fisheries.

To achieve the target, AP2HI in collaboration with member AP2HI and support by local government (*Dinas Kelautan Perikanan Prov Maluku Utara*) held Training of Sustainable Pole and Line Fisheries Practices in Ternate, North Maluku. The training was held on 10 November 2018.

The purpose of this training is that fishermen have knowledge about requirement for Fish Good Handling Practices (*Cara Penanganan Ikan Yang Baik/CPIB*), comply with AP2HI Code of Conduct for vessels including awareness of various handling techniques for ETP species caught in Indonesian fisheries.

## INTRODUCTION

AP2HI is an association that focuses on improving pole-and-line and handline tuna fisheries, one of its fisheries improvement program is organizing training workshop to fishermen, processing company staff, enumerators and other PL and HL related stakeholders using the training curriculum that had been developed before.

Therefore, AP2HI provides training to fishermen who are suppliers to AP2HI members in relation to the code of conduct, handling ETP species and also providing information about the use of GPS.

## OBJECTIVES

The objectives this training are :

1. Fishermen understand the requirements for CPIB certificates
2. Fishermen understand more about fishermen's code of ethics and handling ETP species properly and correctly
3. Fishermen understand the use of GPS correctly

## SUMMARY OF TRAINING AGENDA

Day 1, 10 November 2018. Sustainable Fisheries Practices	
08:30-09:00	Registrasi

09:00-09:30	<b>Pembukaan (Opening), AP2HI and DKP Maluku Utara</b>
09:30-10:30	<b>Pengenalan AP2HI (Introduction about AP2HI ), AP2HI</b>
10:30-10:45	Tea Break
10:45-11:45	<b>Pengenalan tentang CPIB (Introduction of Good Fishing Handling Practices), AP2HI</b>
11:45-13:00	Lunch break
13:00-14:00	<b>Penanganan Kelompok Hewan yang di Lindungi (ETP) dan Kode Etik Nelayan, Pak Hermanto</b>
14:00-14:30	<b>Penandatanganan Kode Etik Nelayan dan Pembagian Stiker, AP2HI</b>
14:30-15.15	<b>Pengisian Data Sosial Ekonomi, AP2HI</b>
15:15-15:30	Tea break
15:30-16:30	<b>Penggunaan GPS untuk alat penangkapan Ikan ( Use GPS for Fishing Operation ), AP2HI</b>
16:30-16:45	<b>Closing, AP2HI</b>

## SUMMARY OF PARTICIPANTS

The participants of this training workshop are 2 persons as facilitators from AP2HI, 1 person from Local Government (DKP Prov. Maluku Utara), 1 person from company for coordinator fisherman, and 15 fishermen. The details of participants are as below:

No	Name	Gender	Instansi	
1	Risman Lamadarasi	M	AP2HI	Site Supervisor
2	Iskandar Hi Husen	M	KM. Inka Mina 280	Fisherman

3	Abdullatif Ade	M	KM. Inka Mina 520	Fisherman
4	Doni is Randi	M	Inka Mina 991	Fisherman
5	Irfan Hi Husen	M	Cakalang 05	Fisherman
6	Aryyawan Hi Fachrudin	M	Nelayan 986	Fisherman
7	Ade Noho	M	Mina Maritim 035	Fisherman
8	Sudirman Hasan	M	Inka Mina 979	Fisherman
9	Djafar Tidore	M	Inka Mina 784	Fisherman
10	M. Agung Konoras	M	Inka Mina 286	Fisherman
11	Ali Muhlis	M	PT. Pollipersi	Company
12	Wawan	M	Inka Mina 782	Fisherman
13	Rustam Rajium	M	Inka Mina 279	Fisherman
14	Fandi Dahrhun	M	Inka Mina 287	Fisherman
15	Abdullah Asagaf	M	DKP Prov. Maluku Utara	Local Government
16	Hermanto	M	CV. Santo Alvin Pratama	Company
17	Candra	M	AP2HI	Training Coordinator

## **TRAINING IMPLEMENTATION**

### **a. Summary of Training Materials & Methods**

In this training the participants were given material related to the handling of fish and Sustainable fisheries practices.

The training method used was teaching in class and continued with discussions with participants.

Instructure gives questions related to the material and appoints fishermen to answer.

The training was held on:

Date : 10 November 2018  
Time : 08:30 – 17:00 WIT  
Venue : CV. Santo Alvin Pratama, Komplek PPN Ternate, Maluku Utara.

#### **b. Summary of the process and materials presented during the activity**

The material training are sustainable fisheries practices.

The first session of the material was given by Candra who explained the Introduction about AP2HI.

We explained about explain the history of AP2HI, its members and the programs that will be carried out.

In the second session, we gave material about introduction of Good Fish Handling Practices (*Cara Penanganan Ikan yang Baik/CPIB*). Regulation of MMAF No. 19 Th 2010 regulate about Quality and Safety Assurance System for Fishery Products. In Clause 5 and 16 explained about CPIB.

The scope of CPIB includes: fishing, handling on board, how to handle when in fishing ports. The requirements for applying for CPIB are in the Regulation of the Directorate General of Capture Fisheries no 84 Th 2013 clausal 6 as :

1. Copy SIPI
2. Copy SKPI ( *Sertifikat Ketrampilan Penanganan Ikan* )
3. Copy SKPPI ( *Sertifikat Kelayakan Penanganan dan Penyimpanan Ikan* )
4. Copy SKH-IPI ( *Surat Keterangan Hasil Inspeksi Pembokaran Ikan* )

The third session, Pak Hermanto gave material about Introduction of ETP species how to handle them when caught and conduct of code fisherman.

The conduct of code fisherman as :

1. Registration of vessel
2. Not involved in illegal fishing
3. Not breaking the law
4. Not involved in the practice of slavery.

5. Record and report catches.
6. Not catch fish undersize.
7. Not catch fish in the ETP list.
8. Don't cut the shark fin and throw back the shark into the sea.
9. Keep safety yourself and others.
10. Keep personal hygiene
11. Keep clean on the board.
12. Keep clean of the fish.

He also explained about ETP ( Endangered, Threatened, Protected ) Species as shark, turtle, seabird, dolphins, whale, and manta ray. Other than that, he also explained about rules using FAD that is :

1. Have permit
2. Set FADs distance minimal 10 mil
3. FADs do not make fish fenced off
4. Don't catch juvenile in the FADs

He reminded to fishermen that they should obey the rules/Code of conduct even if they are not written in law.

After getting an explanation from Pak Hermanto, then the fishermen signed code of conduct.

The next session, we (AP2HI) help fishermen to fill out socio-economic questionnaires.

In the last session, we gave material about Use GPS for Fishing Operation.

The GPS function for fishing vessels is to determine the position of fishermen in the sea, in addition to knowing the speed of the ship and the distance traveled. At present, it is also developing to find out the depth of the waters and even greater to detect the presence of fish. The use of GPS devices also allows fishermen to mark or can make tracks easier.

### **c. Summary of Feedback from Participants**

Fishermen took part in the training realized that their fishermen needed to have skills in handling fish. The fishermen actually have expertise in handling fish but they have no legal evidence.

The fishermen were happy with the training, besides getting knowledge they also got legal evidence if they were proficiency for handling fish and also knowledge about ETP and code of conduct fisherman.

## **CONCLU**

Fishermen's awareness and participation is very minimal. This needs attention from the government and or companies that training of proficiency of fish handling is very important. Even though they already have a lot of experience but now certificates are also needed as legal evidence. Other that, this certificate is needed as requirement for apply Certificate of Worthiness for Fish Handling and Storage of Fishing Vessel (*Serifikat Kelayakan Penanganan dan Penyimpanan Ikan/SKPPI*) and Good Fish Handling Practices (*Cara Penanganan Ikan yang Baik/CPIB*).

The fishermen also aware about the important to protect the ETP and obey the law and regulation on their fishing practice.

**STANDAR OPERASIONAL PROSEDUR**  
**STANDARD OPERATING PROCEDURES**

Sebagai anggota Asosiasi Perikanan Pole & Line dan Handline Indonesia (AP2HI), dan bentuk dukungan terhadap program pendataan kapal, dengan ini saya menyatakan bersedia mengikuti SOP ini.

*As a participating member of the Indonesian Pole & Line and Handline Fisheries Association / Pro-Active vessel Registry Initiative I agree to comply with the following SOP.*

- 

Berkomitmen untuk melakukan praktik penangkapan ikan dengan cara-cara yang bertanggung jawab dan berkelanjutan  
*I agree to conduct my fishing operations employing sustainable fishing practices*
- 

Memahami penanganan beragam spesies tangkapan sampingan terkait Endangered Threatened & Protected (ETP) di Indonesia  
*I am aware of the various handling techniques for ETP species caught in Indonesian fisheries*
- 

Bersedia memberikan data dan informasi terkait dengan adanya inspeksi dari pihak yang telah ditunjuk (observer dan auditor)  
*I agree to provide data and be subjected to inspection*
- 

Melaksanakan penanganan ikan di atas kapal berdasarkan pedoman penanganan ikan yang benar  
*I agree to use good handling practices*
- 

Tidak melakukan pemotongan sirip ikan hiu di atas kapal  
*No shark finning is allowed on board*
- 

Tidak melakukan pelanggaran terhadap undang-undang dan hukum yang berlaku terkait dengan perikanan yang telah diatur oleh pemerintah Indonesia (IUU fishing)  
*Our vessels are not involved in IUU fishing and adhere to Indonesian government regulations*

## ANNEX 2 – Attendance List

Attendance list were provided on separate files of this report.

## ANNEX 3 – Training Cost

No	Item	Amount Covered By	
		AP2HI (IDR)	Company ( IDR )
1	Transportation	5.252.700	1.800.000
2	Meals	2.530.000,-	
3	Materials & Others	755.500,-	-
4	Acomodation	1.745.000,-	-
5	Capacity Building	550.000,-	-
<b>Total</b>		<b>10.993.200,-</b>	<b>1.800.000,-</b>

Total investment leveraged by company is IDR 1,800,000 (USD 120)
