## **ACRONYMS AND ABBREVIATIONS**

AP2HI	Asosiasi Perikanan Pole & Line dan Handline Indonesia (Indonesian Pole & Line and Handline Fisheries Association)
CPIB	Cara Penanganan Ikan yang Baik (Fish Good Handling Practises)
DKP	Dinas Kelautan dan Perikanan
FMA	Fisheries Management Area
HL	Hand Line
IPNLF	International Pole And Line Foundation
KAPI	Kapal Perikanan dan Alat Penangkapan Ikan
KCBS	Karya Cipta Buana Sentosa
PII	Primo Indo Ikan
PL	Pole & Line
PPN	Pelabuhan Perikanan Nusantara
SKPI	Sertifikat Ketrampilan Penanganan Ikan
SKPPI	Sertifikat Kelayakan Penanganan dan Penyimpanan Ikan

## EXECUTIVE SUMMARY

AP2HI and IPNLF as partner also commits to support member on Capacity Building & Training on how to minimize environmental impact from the fisheries.

To achieve the target, AP2HI in collaboration with member AP2HI and support by local government (DKP Kabupaten Sikka and DKP Kabupaten Flores Timur) held Training of Sustainable Pole and Line Fisheries Practices in Maumere and Larantuka. The training was held on February 18<sup>th</sup> in Maumere and February 20<sup>th</sup> in Larantuka.

The purpose of this training is that fishermen have knowledge about requirement for Fish Good Handling Practices (*Cara Penanganan Ikan Yang Baik/CPIB*), comply with AP2HI Code of Conduct for vessels including awareness of various handling techniques for ETP species caught in Indonesian fisheries.

## INTRODUCTION

AP2HI is an association that focuses on improving pole-and-line and handline tuna fisheries, one of its fisheries improvement program is organizing training workshop to fishermen, processing company staff, enumerators and other PL and HL related stakeholders using the training curriculum that had been developed before.

Therefore, AP2HI provides training to fishermen who are suppliers to AP2HI members in relation to the code of conduct, handling ETP species and also providing information about the use of GPS.

## OBJECTIVES

The objectives this training are:

1. Improve fishermen's skills how to handle fish on a boat so that maintaining the quality of fish from the time it is captured, landed until it is processed according to food safety and security standards
2. Fishermen understand the requirements for CPIB certificates
3. Fishermen understand more about fishermen's code of ethics and handling ETP species properly and correctly

## SUMMARY OF TRAINING AGENDA

<b>Maumere, 18 February 2019</b>	
08:00-09:00	<b>Registration, KCBS team</b>

09:00-09:30	<b>Pre-Test (SKPI knowledge), AP2HI</b>
09:30-10:00	<b>Opening and Remarks, DKP Kab. Sikka and Dit. KAPI MMAF</b>
10:00-10:15	<i>Coffee Break</i>
10:15-12:00	<ul style="list-style-type: none"> <li>• <b>Prinsip ABCD (Introduction the ABCD's Principle)</b></li> <li>• <b>Proses Kemunduran Mutu (Introduction Process of Fish Quality Reduction)</b></li> <li>• <b>Persyaratan Hygiene Personal (Personal Hygiene Requirement)</b></li> </ul> <i>Presented by Dit. KAPI MMAF</i>
12:00-13:00	<i>Lunch Break</i>
13:00-14:45	<ul style="list-style-type: none"> <li>• <b>Tehnik Penanganan Ikan di Atas Kapal (Introduction Fish Handling Technic on Board)</b></li> <li>• <b>Tehnik Penyimpanan Dingin (Introduction Technical of Cold Storage)</b></li> <li>• <b>Tehnik Pengujian Organoleptik (Introduction Technic of Organoleptic Test)</b></li> </ul> <i>Presented by Dit. KAPI MMAF</i>
14:45-15:00	<i>Coffee Break</i>
15:00-16:00	<b>Standar Pembongkaran Ikan (Introduction Standard of Fish Unloading),</b> <i>Presented by Dit. KAPI MMAF</i>
16:00-16:30	<b>Post-Test and Exam , AP2HI and Dit. KAPI MMAF</b>
16:30-16:45	<b>Closing, AP2HI and KCBS team</b>
<b>Larantuka, 20 February 2019</b>	
08:30-09:00	<b>Registration, PII team</b>
09:00-09:30	<b>Opening Remarks, AP2HI and DKP Kab. Flores Timur</b>
09:30-09:45	<b>Pre-Test (SKPI knowledge), AP2HI</b>
09:45-10:00	<i>Coffee Break</i>
10:00-12:00	<ul style="list-style-type: none"> <li>• <b>Prinsip ABCD (Introduction the ABCD's Principle)</b></li> <li>• <b>Proses Kemunduran Mutu (Introduction Process of Fish Quality Reduction)</b></li> <li>• <b>Persyaratan Hygiene Personal (Personal Hygiene Requirement)</b></li> </ul> <i>Presented by Dit. KAPI MMAF</i>
12:00-13:00	<i>Lunch Break</i>
13:00-14:45	<ul style="list-style-type: none"> <li>• <b>Tehnik Penanganan Ikan di Atas Kapal (Introduction Fish Handling Technic on Board)</b></li> <li>• <b>Tehnik Penyimpanan Dingin (Introduction Technical of Cold Storage)</b></li> <li>• <b>Tehnik Pengujian Organoleptik (Introduction Technic of Organoleptic Test)</b></li> </ul> <i>Presented by Dit. KAPI MMAF</i>
14:45-15:00	<i>Coffee Break</i>
15:00-16:00	<ul style="list-style-type: none"> <li>• <b>Standar Pembongkaran Ikan (Introduction Standard of Fish Unloading)</b></li> <li>• <b>Post-Test and Exam</b></li> </ul> <i>Presented by Dit. KAPI MMAF</i>
16:00-17:30	<ul style="list-style-type: none"> <li>• <b>Social Economy Data Input</b></li> <li>• <b>ETP Handling and Fishermen Code of Conduct, AP2HI</b></li> <li>• <b>Fishermen Code of Conduct Formality Signing and Sticker Distribution</b></li> </ul> <i>Prepared by AP2HI</i>
17:30-17:40	<b>Closing, AP2HI and PII team</b>

## **SUMMARY OF PARTICIPANTS**

The training workshop series were held at two places, in Maumere and Larantuka. There were stakeholders involved in these both training, from companies (PT KCBS and PT PII), local government (DKP Kab. Sikka and DKP Kab. Flores Timur), fishermen PL and HL, AP2HI and also national government (Ditjen. KAPI MMAF as trainer) and also from university (Nipa University). There were 39 people attended training at Maumere and 66 people attended training at Larantuka. The details of participants showed at Annex 2.

## **TRAINING IMPLEMENTATION**

### **a. Summary of Training Materials & Methods**

In this training the participants were given material related to the handling of fish and Sustainable fisheries practices.

The training method used was teaching in class and continued with discussions with participants.

Instructure gives questions related to the material and appoints fishermen to answer.

The training were held on:

Date : 18 February 2019 & 20 February 2019

Time : 08:30 – 17:00 WITa

Venue : Maumere (KCBS' meeting room) & Larantuka (Galekat Nara Hotel)

### **b. Summary of the Process and Materials Presented During the Activity**

For both trainings, local government opened the training. After the opening session, trainer from Dit. KAPI MMAF directly gave presentation about standard points to get Certificate of Proficiency of Fish Handling (SKPI/*Sertifikat Keterampilan Penanganan Ikan*) as requirements to get Certificate of Good Fish Handling Practices (*Sertifikat Cara Penanganan Ikan yang Baik/CPIB*). Regulation of MMAF No. 19/2010 regulate about Quality and Safety Assurance System for Fishery Products. In Clause 5 and 16 explained about CPIB.

The scope of CPIB includes: fishing, handling on board, how to handle when in fishing ports. The requirements for applying for CPIB are in the Regulation of the Directorate General of Capture Fisheries Np. 84/2013 clausal 6 as:

I. Copy SIPI

2. Copy SKPI (*Sertifikat Ketrampilan Penanganan Ikan*)
3. Copy SKPPI (*Sertifikat Kelayakan Penanganan dan Penyimpanan Ikan*)
4. Copy SKH-IPI (*Surat Keterangan Hasil Inspeksi Pembokaran Ikan*)

For this session, trainer helped AP2HI to conduct pre-test and post-test about SKPI. And after the presentations, trainer gave examination to fishermen as requirement to get SKPI certificate.

For session about Introduction of ETP species how to handle them when caught and fisherman conduct of code, only can be presented at Larantuka. These materials were informed by AP2HI representative. The conduct of code fisherman as:

1. Registration of vessel
2. Not involved in illegal fishing
3. Not breaking the law
4. Not involved in the practice of slavery.
5. Record and report catches.
6. Not catch fish undersize.
7. Not catch fish in the ETP list.
8. Don't cut the shark fin and throw back the shark into the sea.
9. Keep safety yourself and others.
10. Keep personal hygiene
11. Keep clean on the board.
12. Keep clean of the fish.

AP2HI representative also explained about ETP (Endangered, Threatened, Protected) Species as shark, turtle, seabird, dolphins, whale, and manta ray. Other than that, he also explained about rules using FAD that is:

1. Have permit
2. Set FADs distance minimal 10 mil
3. FADs do not make fish fenced off
4. Don't catch juvenile in the FADs

We reminded to fishermen that they should obey the rules/Code of conduct even if they are not written in law.

After getting an explanation from AP2HI representative, then the fishermen signed code of conduct. And filled out the socio-economics questionnaires.

### c. Summary of Feedback from Participants

Fishermen took part in the training realized that their fishermen needed to have skills in handling fish. The fishermen actually have expertise in handling fish but they have no legal evidence.

The fishermen were happy with the training, besides getting knowledge they also got legal evidence if they were proficiency for handling fish and also knowledge about ETP and code of conduct fisherman.

## CONCLU

Fishermen's awareness and participation is very minimal. This needs attention from the government and or companies that training of proficiency of fish handling is very important. Even though they already have a lot of experiences but now certificates are also needed as legal evidence. Other that, this certificate is needed as requirement for apply Certificate of Worthiness for Fish Handling and Storage of Fishing Vessel (*Serifikat Kelayakan Penanganan dan Penyimpanan Ikan/SKPPI*) and Good Fish Handling Practices (*Cara Penanganan Ikan yang Baik/CPIB*).

The fishermen also aware about the important to protect the ETP and obey the law and regulation on their fishing practice.

## ANNEX I – Documentation

*Pic. 1 Participant Training in Maumere*

*Pic 2 Participant Training in Larantuka*

**STANDAR OPERASIONAL PROSEDUR**  
**STANDARD OPERATING PROCEDURES**

Sebagai anggota Asosiasi Perikanan Pole & Line dan Handline Indonesia (AP2HI), dan bentuk dukungan terhadap program pendataan kapal, dengan ini saya menyatakan bersedia mengikuti SOP ini.

*As a participating member of the Indonesian Pole & Line and Handline Fisheries Association / Pro-Active vessel Registry Initiative I agree to comply with the following SOP.*

-  Berkomitmen untuk melakukan praktik penangkapan ikan dengan cara-cara yang bertanggung jawab dan berkelanjutan  
*I agree to conduct my fishing operations employing sustainable fishing practices*
-  Memahami penanganan beragam spesies tangkapan sampingan terkait Endangered Threatened & Protected (ETP) di Indonesia  
*I am aware of the various handling techniques for ETP species caught in Indonesian fisheries*
-  Bersedia memberikan data dan informasi terkait dengan adanya inspeksi dari pihak yang telah ditunjuk (observer dan auditor)  
*I agree to provide data and be subjected to inspection*
-  Melaksanakan penanganan ikan di atas kapal berdasarkan pedoman penanganan ikan yang benar  
*I agree to use good handling practices*
-  Tidak melakukan pemotongan sirip ikan hiu di atas kapal  
*No shark finning is allowed on board*
-  Tidak melakukan pelanggaran terhadap undang-undang dan hukum yang berlaku terkait dengan perikanan yang telah diatur oleh pemerintah Indonesia (IUU fishing)  
*Our vessels are not involved in IUU fishing and adhere to Indonesian government regulations*
