Coral Springs, Florida, USA**

**Letter for the Consideration of the Northern Committee 15th Regular Session on
September 2 to 6, 2019, at Portland, Oregon, USA**

With regard to the development of a Harvest Strategy for North Pacific Swordfish Fisheries and proposal WCPFC-NC15-2019/DP-14.

The Sea Delight Group of Companies import and distribute tuna, swordfish and mahi-mahi into both the North American and European Union markets.

We have specific interests in North Pacific swordfish.

There is a growing international market demand for sustainability assurance for all fish products, including swordfish.

We hereby express our strong support for adoption by the Northern Committee of the "Proposal by the United States of America, Harvest Strategy for North Pacific Swordfish Fisheries, WCPFC-NC15-2019/DP-14".

Stephen R. Fisher

Sustainability Director, Sea Delight
