

Action Updates for the Tunago Pacific Longline FIP

P2 – Environmental Impacts

Task Number	Task	Status	Date of completion
2.1	Assurance Pacific bluefin tuna is not being caught by the FIP	In Progress	
Comments			
<p><i>Update as of July 2018</i></p> <p>To ensure Tunago are not catching Pacific bluefin Tuna, the fishery is providing catch data for Key Traceability to plot against recorded distribution of the bluefin tuna, this will ensure the fishery is not fishing in the same regions as bluefin tuna.</p>
