

Brief Updates on Socialization the Sustainable Snapper and Grouper Fisheries Management in Saleh Bay (Periode May– October 2024)

During the period from May to October 2024, raising awareness through socialization for the sustainable management of snapper and grouper fisheries in West Nusa Tenggara has been conducted five times across five villages in Saleh Bay (Table 1). These efforts aim to enhance community knowledge and awareness of sustainable fishing practices. This period's outreach activities have reached a total of 249 participants.

Table 1. Socialization on sustainable snapper and grouper fisheries management in West Nusa Tenggara
