

AFC MEETING PROTOCOL

for the production regulating (catch) of anadromous
fish species in the Kamchatka Area.

Petropavlovsk-Kamchatsky

September 15th, 2020

In accordance with the President of the Russian Federation decree of April 2, 2020 No.239, "On measures to ensure the sanitary and epidemiological well-being of the population in the territory of the Russian Federation in view of the spread of the novel Coronavirus infection (covid-19)", by the Kamchatka Area Governor decree dated April 10, 2020, No.50, "On measures to prevent the spread of the novel Coronavirus infection (covid-19) in the Kamchatka Area", meetings are held by video conference.

Zdetovetsky A.G.	Acting Minister of Fisheries of the Kamchatka Area, Deputy Chairman of the Commission;
Davydov V.G.	Deputy Minister - Head of the Fishing Department of the Ministry of Fisheries of the Kamchatka Area. Commission secretary;
Granatov R.G.	Deputy Chairman of the Legislative Assembly of the Kamchatka Area - Chairman of the Standing Committee on Environmental Management, Agrarian Policy and Environmental Safety, Deputy Chairman of the Commission;
Grokhotova L.I.	Chief Specialist-Expert of the Fisheries Organization Department of the North-Eastern Territorial Administration of Russian Fisheries;
Danilin D.D.	Executive director of the regional industrial association of employers "Union of Fisheries and Entrepreneurs of Kamchatka";
Koshkareva L.A.	Head of the Fisheries Organization Department of the North- Eastern Territorial Administration of Russian Fisheries;
Kopylov A.A.	First Deputy Chairman of the Legislative Assembly of the Kamchatka Area;
Metelitsa A.M.	Representative of the regional public organization "Association of Indigenous Peoples of the North of Kamchatka Area";
Petrov E.V.	Deputy Head of the Department for the Marine Biological Resources Protection of the Frontier Directorate of the Federal Security Service of Russia for the Eastern Arctic Region;

Smyvalov A.A.	Head of the Department of Legal Support and Administration of the North-Eastern Territorial Administration of Russian Fisheries;
Tatarinov Y.A.	Acting Head of the North-Eastern Territorial Administration of Russian Fisheries.
Shpigal'skaya N.Y.	Head of the Kamchatka branch of the Federal State Budgetary Scientific Institution "All-Russian Scientific Research Institute of Fisheries and Oceanography";

Attended the videoconference: 12

Remotely voted: 3 (Mosienko S.A., Tkachuk S.E., Boronets O.V.)

Quorum: 15

Meeting agenda:

1. On the timing of industrial and traditional fishing completion in certain fishing areas of the Kamchatka Area.
2. On the establishment of additional volumes of production (catch) of aquatic biological resources for the organization of amateur fishing.

Listened to:

Shpigal'skaya N.Y. - On the fishery dynamics, the level of development of the established production (catch) volumes. On the recommended deadlines for the Pacific salmon fishery completion.

Zdetovetsky A.G. - On the appeal of ordinary communities "Lesya", "Kolyana", "Ruksanaut", "Eveny", "Rodoki", "Spel", "AASH Revlan" not to take a closure decision on the traditional fishing of the indigenous peoples of the Kamchatka-Kuril fishing subzone.

The speakers are: Zdetovetsky A.G., Tatarinov Y.A.

In accordance with clause 5.2. The order of the commission's activities, based on the recommendations of the Kamchatka branch of the Federal State Budgetary Scientific Institution "All-Russian Scientific Research Institute of Fisheries and Oceanography", the North-East Territorial Administration of Russian Fisheries and the North-East Branch of the Federal State Budgetary Institution "Main Basin Administration for Fisheries and the Conservation of Aquatic Biological Resources" dated September 14 2020 No.01-15 / 25/75

The resolution is:

- 1.1 To determine the industrial and traditional fishing (communities individuals) prohibition timing for prevention of the massive seizure of Kamchatka salmon in the coast of Western Kamchatka migration routes, as well as due the established volumes of the Pacific salmon predictable catch development and a intensity decrease of coho salmon forthcoming, indicating its spawning run final stage:
 - Since September 16th midnight in the Kronotsky Bay, Avachinsky bay, Avachinskaya lip and the flowing rivers.
 - Since September 16th midnight in the West Kamchatka subzone and the Kamchatka-Kuril subzone and flowing rivers.

By voting: "for" - 12, "against" - 3 (Danilin D.D., Metelitsa A.M., Kopylov A.A.) (Danilin D.D. special opinion is attached).

- 1.2 To recommend the fishing grounds users to use only fishing rods (spinning rods and fishing rods) as fishing gear for amateur fishing organizing in the Avachinsky Bay, Avachinsky Bay and flowing rivers, the Western Kamchatka subzone, Kamchatka-Kuril subzone from 16th of September to 19th of October for the purpose of coho salmon stocks conservation.

By voting: "for" - unanimously.

2. Listened to:

Zdetovetsky A.G. - On recommendations for the additional volumes of coho salmon allocation for the recreational fishing organization from the previously unallocated volume and the redistribution of previously established volumes.

In accordance with clause 5.2. The order of the commission's activities, based on the recommendations of the Kamchatka branch of the Federal State Budgetary Scientific Institution "All-Russian Scientific Research Institute of Fisheries and Oceanography", the North-East Territorial Administration of Russian Fisheries and the North-East Branch of the Federal State Budgetary Institution "Main Basin Administration for Fisheries and the Conservation of Aquatic Biological Resources" dated September 14 2020 No.01-15 / 25/75

The resolution is:

- 2.1 To distribute to the areas intended for the amateur fishing organization by "BIG-RIVER" LLC (INN 4108006816)
- No.729 (Bol'shaya river) 1,0 ton of coho salmon;
 - No.730 (Bol'shaya river) 1,0 ton of coho salmon;
- Also to redistribute the established volume from the fishing area No.714 to the areas:
- No.729 (Bol'shaya river) 2,0 ton of coho salmon;
 - No.730 (Bol'shaya river) 2,0 ton of coho salmon.

By voting: "for" - 14, "against" - 1 (Metelitsa A.M.)

- 2.2 Lead the unallocated volume of Pacific salmon possible catch for commercial fishing and recreational fishing organization in accordance with this Protocol annex to.

By voting: "for" - unanimously.

Zdetovetsky A.G.

Davydov V.G.

The protocol annex of the commission for the production (catch)
regulating of anadromous fish species in the Kamchatka Area
dated 09.15.2020 No.30

Undistributed volume of the Pacific salmon possible catch for commercial fishing and recreational fishing organization.

To Tatarinov Y.A., acting Head of the North-Eastern
Territorial Administration of the Russian Fisheries
From Danilin D.D., a member of the commission for
regulating the production (catch) of anadromous fish
species in the Kamchatka Area, executive director
of the SRPK

Dear Yury Aleksandrovich!

I would like you to attach my special opinion on issue 1 to Protocol No.30 of September 15, 2020 of the Commission for the Anadromous Fish Species Regulation of the Production (Catch) in the Kamchatka Area. On the completion of industrial and traditional fishing timing in certain fishing areas of the Kamchatka Area.

Firstly, the recommendations of the Federal State Budgetary Scientific Institution "All-Russian Scientific Research Institute of Fisheries and Oceanography" ("KamchatNIRO") justifying earlier dates for the end of the fishery than had been established earlier (before September 28) were not sent out. The verbal comments of the director of KamchatNIRO indicate the reason is "insufficient filling of spawning grounds with coho salmon producers." But it's too far to the end of coho salmon entering the rivers.

I believe that the Commission decision contradicts the strategy of Pacific salmon fishing in the Kamchatka Area in 2020 and cannot be legitimate, since the requirements of paragraph 3 of the Appendix to the Order of the Ministry of Agriculture of Russia dated February 26, 2020 No.86 that the required recommendations for the Commission to make decisions must be submitted no later than one business day before the Commission meeting. It will serve a reason for enterprises that have suffered losses from this decision for going to court. The Industrial enterprises made their plans and calculated costs according to the previous decision. It is necessary to cancel that solution and allow the enterprises to finalize it before the established deadline by the fishing strategy and the previous Commission Protocol (No.27).

Best regards,
executive director of the SRPK

Danilin D.D.
