No. ___ dated _____ 2021

To the head of ForSea Solutions
consulting company
N.O. Novikova

The intentions of Okha Ltd and Rybnovskii Losos Ltd to achieve Action 10 in 2021

Action 10. Monitoring and enforcement (anti-poaching activities).

Performance Indicator (PI 3.2.3). Demonstrate that enforcement of fishing regulations provides effective deterrence

In order to implement the measures outlined in the Action 10 of the Comprehensive Plan, the company undertakes to continue anti-poaching work, for which in 2021 it is planned to finance these activities in the amount of more than 20 million rubles. It is planned to employ about 70 people to patrol and protect spawning rivers, of which about 20 people will be contracted by the Sakhalin-Kuril Territorial Administration of the Federal Agency for Fishery (SKTU) as freelance inspectors with agency authority and appropriate certification stipulated by the federal legislation of the Russian Federation. The planned period of patrol teams to operate on the territory of the Okhinskii district is from June 15 to December 1, 2021.

As in the previous years, it is planned to organize several stationary monitoring stations on the large spawning rivers of the Okhinskii District: Pilvo, Chingai, Langry and other rivers. The protection of smaller spawning rivers will be conducted by walking patrol brigades.

It is also planned to continue to support the local fish protection services, for which vehicles, other technical equipment and fuel will be provided. It is planned to conduct anti-poaching raids together with employees of state structures from among the monitoring and supervisory bodies responsible for carrying out this work (SKTU, police, Border Service, the National Guard of the Russian Federation (Rosgvardiya), etc.).
