

Information regarding the client-company plans to fulfill the FIP Action 10 in 2019

Action 10. Monitoring and compliance with the rules (anti-poaching activities).

Performance Indicator (PI) 3.2.3. Demonstrate that enforcement of fishing regulations provides effective deterrence.

To maintain Action 10 at a high level, the company undertakes to continue anti-poaching work at a level of effort not less than the company conducted in 2018, for which in 2019 it is planned to finance these activities in the amount of 10 million rubles (*USD \$154,836.00 - current exchange rate 06.11.19*). It is also planned to provide assistance to the local fish protection agency, for which motor vehicles, other technical equipment and fuel will be allocated. Anti-poaching raids are planned together with government officials responsible for carrying out this work (SKTU, police, border guards, the Russian National Guard, etc.).
