Hi Wendy,

Doing well & hope you are too. I believe the time you've indicated will work for all. The FIP work is still in very preliminary stages due to the COVID situation and inability to travel, etc..

We are very interested to know what WWF is doing to improve the fishery and who you are working with in the industry as well. I'm sure there will be opportunities to collaborate.

Please invite the individuals I've copied on this email as well. Looking forward to the call!

Thanks!

Terry

Hi Terry,

I hope you're doing well.

I wanted to follow up on this email chain from back in May. We've seen that the [Ecuador Gulf of Guayaquil titi shrimp - bottom trawl](#) basic FIP is posted on FisheryProgress, which is great. We were wondering if we could now schedule a call to discuss next steps and learn a bit more about the FIP work, as well as talk about potentially coordinating efforts with the titi shrimp fishery in Ecuador since WWF-Ecuador is doing some work with that fishery as well.

Would it be possible to have a call next Wednesday September 23rd at 11 am ET to discuss? If so, I can send along zoom details for the call.

Thanks and I look forward to hearing from you!

Best,
Wendy

Thanks for connecting us, Nick.

Hi Terry, nice to meet you. I've copied Pablo on this email. Pablo leads WWF's fisheries and aquaculture work in Ecuador. I know that WWF-Ecuador has plans to continue to work with the fishery on some activities under a GEF grant that they've received, but they are reevaluating the strategy for working with the fishery amidst all of the uncertainty that COVID is bringing. Still, I think it would be helpful for you to connect and to discuss how to coordinate efforts with the fishery. I'd be interested in joining in on the discussion if possible.

Thanks and look forward to connecting.

Best,
Wendy

Hi Wendy,

I'd like to introduce you to Terry Stachowiak (cc'd) of Rich Products. Terry is managing their engagement in the Ecuador shrimp FIP that is under development with Pesca Responsable and expressed an interest in connecting with Pablo after reading this article on the WWF website: <https://www.worldwildlife.org/stories/sustainable-shrimp>

Would you be able to connect with Terry and put him in touch with Pablo?

Please let us know.

Thanks!
Nick
