From
The Director of Fisheries

To
The Director,
CIFT, Kochi

Sir,

Sub:- Fisheries - Proposal for introducing the concept of Model fishing boat -reg.

Ref:- Letter No. F.No. 9-1/2020-FTD from Director, CIFT dated 12/7/21

Kind attention is inviting to the subject and reference. The concept of model fish boat as proposed is a good concept and it encourages the fishermen for the compliance of mandatory requirements of KMFR Act. I may inform that Department of Fisheries is implementing the projects on square mesh (50% subsidy), Holographic Registration Plates (50% subsidy) and VMS (Vessel Monitoring System, 75% subsidy) and presently we have invited applications for the project. The Department can accommodate this proposal by including the model boat as beneficiary so that we can support with the subsidy part to the project. Also we will extend our full support for the implementation of the project.
