Dear Mauro,
Thank you for your time during our call last Tuesday regarding the establishment of the FIP Research and Monitoring Task Force for the Belize Spiny Lobster FIP.

As promised, please find attached documents you requested:

- 1) General ToR for all FIP Task Forces (this can be used as a starting point for development of ToR specific to the Research and Monitoring Task Force during the first meeting).
- 2) FIP work plan for research and Monitoring Task Force – to be adapted and updated in collaboration with the other members of the RMTF during the first and/or second meeting.

Please let me know when you would like to arrange the first meeting, I am proposing the second or third week of January 2022.
Let me know if you have any questions, or if there is any way I can support you in moving this Task Force forward.

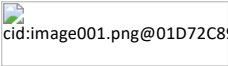

Kind regards,
James Foley

At TNC we work flexibly. While it suits me to email now, I don't anticipate a response outside your normal work hours.

Please consider the environment before printing this email.
