Hi Erin,

Looks like I inverted the numbers for the 3PS tagging. Here is the corrected numbers.

	2J	3K	3L	3PS	Total
DFO		200	2222	160	2582
FFAW		442	476	311	1229
Total	0	642	2698	471	3811

Once again, if you have any other questions let me know,
Dwayne

Subject: 2023-2024 Cod Tagging Activities

Hi Emilie and Dwayne,

We will be submitting an update on our Northern Cod Fishery Improvement Project by November 15, 2023. As you know from past requests, we typically do an update of number of Atlantic cod tagged in 2J3KL and 3Ps, as well as the numbers tagged by FFAW and DFO in each assessment area.

Would you be able to provide a summary of tag deployment records to date for the 2023-2024 season? The summary table and email would be uploaded as documentation of ongoing work for this action item.

Happy to discuss further if needed.

Thanks,
-Erin
