

SOUTHEAST SULAWESI BLUE SWIMMING CRAB MANAGEMENT MEETING July 2024

On 8 July 2024, an effort to continue to improve blue swimming crab management, especially in the Southeast Sulawesi region which has the potential for crab fisheries in FMA 714, APRI held a meeting in collaboration with the Southeast Sulawesi Provincial Marine and Fisheries Agency in the city of Kendari.

This meeting was attended by several heads of city and regional departments who came directly as well as other government agencies who also play a role in this crab commodity, such as the Marine and Fishery Products Quality Control and Supervision Agency (BPPMHKP), Halu Oleo University Academics, Polytechnics, Business Actors, Mini Plant Representative.

This meeting also discussed the action plan for crab management in Southeast Sulawesi Province which was prepared based on input from stakeholders who attended the crab management meeting in Southeast Sulawesi Province.
