P2 – Environmental Impacts

Task Number	Task	Status	Date of completion
2.7	Develop surveillance programme at landing and transshipment sites (e.g. random & targeted checks) with the Vanuatu Observer Programme	In Progress	
Comments			
<p><i>Update as of July 2018</i></p> <p>Through work with Satlink and Vanuatu Fishing Authority we are moving forwards to improving surveillance programmes. Vanuatu and Tunago have confirmed they are willing to put human observers on board vessels.</p> <p>Currently a human observer is onboard a fishing vessel within the FIP and conversations with the Vanuatu Authority are being had about obtaining the observer report.</p> <p>All the FIP participants will be meeting with the Vanuatu Authority in 2019 to discuss this further.</p>
