

Mexico, Yucatan Peninsula Blue crab - dipnet-pot/trapFIP

Preliminary Map
Update March 2020

How we got the map?

- This map has been created through direct surveys with specific questions to fishermen as they arrive to the Reception Center.
- Where have you located your traps today?
- Can you tell me how you get there and how long does it take for you to get there?
- Can you help me locate it in the map?.
