

## APRI SUPPORTS ENVIRONMENTALLY FRIENDLY FISHING GEAR

September 2025

APRI collaborated with Fisheries Agency of distributing fishing gear in the form of 4.5-inch crab nets. The fishing gear is in accordance to the regulation of Indonesian Ministry of Marine Affairs and Fisheries which regulates that blue swimming crab fishing gear must allow species under 10 cm to escape. This assistance was provided to the fishermen in Polagan Village, Galis District, with each. The activities also being carried out in Rembang, Central Java, and in Lampung. The events were attended by local fisheries offices which also educates the fishermen about the importance of GTK5 program. This effort showcase APRI's commitment toward more environmentally friendly and sustainable crab fishing activities and improvement the welfare of local fishermen.
