主題 & 會議記錄 Topic & Meeting Recap.

感謝漁業署遠洋漁業組(TFA)業務繁重之餘,仍願意以文書方式,提供FIP利益相關者針對漁業管理及FIP永續計畫進行意見交換及相關諮詢。

為協助業者提交每半年應更新之FIP定期報告,本會議原訂每半年召開一次。為持續就遠洋延繩釣漁業相關政策、FIP 推動及國際合作議題進行意見交流,原預定於 2025 下半年度召開之會議,改以紙本審閱方式進行, Ocean Outcomes已先行彙整業者及漁會主要議題及建議問題,敬請貴署參酌並提供書面回覆,以作為FIP定期報告、後續計劃執行與國內政策與國際市場要求緊密合作相關協助。

We thank the Fisheries Agency (TFA) Distant Water Fisheries Division for its willingness to provide written communication to FIP stakeholders regarding fisheries management and the FIP Sustainability Plan, despite its recent heavy workload.

To assist with requirements in submitting the FIP periodic reports that should be updated every six months, this meeting was originally scheduled to be held every six months. To continue communication and exchange of views on distant water longline fishery policies, FIP promotion progress, and international cooperation, the meeting originally scheduled for the second half of 2025 has been postponed. Instead, it will be conducted in a paper-based review format. Ocean Outcomes has already compiled the key issues and questions from industry and fishery associations.

We kindly invite TFA to review this document and provide written responses or comments for reference in supporting the FIP's regular reporting, subsequent plan implementation cooperation, and the alignment of domestic policies with international market requirements.

區域漁業組織相關政策 RFMO Policy	<ol style="list-style-type: none">1. 南太平洋長鰭鮪管理策略(South Pacific Albacore Management Procedure, SPALB MP); 根據 MSC Fisheries Standard v3.1 Section SE 所規定的里程碑(milestones), 目前南太平洋長鰭鮪(SPA)管理程序 (Management Procedure, MP)的發展進度已延宕約一年, 里程碑 d、e、f1 預計須於 2026 年 5 月前完成, 以避免南太平洋長鰭鮪資源(SPA stock)被MSC列為暫停利用狀態; 這表示中西太平洋漁業委員會必須在 2025 年 12 月(馬尼拉)年會上通過 SPALB MP:<ol style="list-style-type: none">a. 惠請貴署協助說明對於本年度中西太平洋漁業委員會正在研擬之南太平洋長鰭鮪(SPALB)管理程序 (Management Procedure) 我國相關立場說明及預期推動成果?b. 各會員國須於 2025 年 10 月底前提提交提案, 供 12 月 WCPFC 年會審議, 我國是否有計畫提案或以其他方式表達我國立場?

	<p>c. 是否考量在管理程序正式開會討論前，與業界進行相關諮詢，以利業者應對MSC設定的對應里程碑 (milestones) ？</p> <p>1. South Pacific Albacore Management Procedure (SPALB MP): According to the milestones stipulated in Section SE of the MSC Fisheries Standard v3.1, the development of the Management Procedure (MP) for South Pacific albacore (SPA) has been delayed by approximately one year. Milestones d, e, and f1 are expected to be completed by May 2026 to avoid the SPA stock being classified as <i>suspended</i> under the MSC framework. This means that the Western and Central Pacific Fisheries Commission (WCPFC) must adopt the SPALB MP at its annual meeting in December 2025 (Manila, Philippines):</p> <p>a. We would like to kindly request your agency’s assistance in clarifying the competent authority’s position and expected outcomes regarding the ongoing development of the South Pacific Albacore Management Procedure (SPALB MP) under the WCPFC this year.</p> <p>b. As all members are required to submit proposals by the end of October 2025 for consideration at the December WCPFC Annual Meeting, does Taiwan have any plans to submit a proposal or otherwise express its position on this matter?</p> <p>c. Would the competent authority consider initiating consultations with industry stakeholders prior to the formal adoption of the management procedure, to help the industry prepare for and align with the corresponding MSC milestones?</p>
<p>觀察員(人類/電子)覆蓋率 Observer Coverage (Human/EM)</p>	<p>1. 針對支持逐步提升大型延繩釣船人類及/或電子觀察員(EM)覆蓋率，達到MSC目前建議的20%覆蓋率水準，署內能否提供相關政策協助業主達成相關目標？ To support the gradual increase of human and/or electronic observer (EM) coverage on large-scale longline vessels — with the goal of reaching the 20% coverage level currently recommended by the MSC — would the competent authority be able to provide relevant policy support or assistance to help vessel owners achieve this target?</p> <p>2. 中西太平洋漁業委員會貴署於本年度10月公佈有關電子觀察員的工作小組會議計畫，提出中西太平洋漁業委員會將來會針對會員國的EM計畫進行稽核或審核，以確認資料有效，請問貴署預期相關應對計畫？對於已開始使用EM部分業者，若有相關指導可提供業者提早因應準備，亦有莫大幫助</p>

	<p>In October this year, the Western and Central Pacific Fisheries Commission (WCPFC) announced the workplan of the Electronic Monitoring (EM) Working Group, which includes future audits or reviews of Members' EM programs to verify data validity.</p> <p>May we kindly ask what response or preparation plan the competent authority has in place for this upcoming development?</p> <p>For those industry operators who have already begun implementing EM systems, any guidance or direction from the authority to help them prepare in advance would be greatly appreciated and highly beneficial.</p>
<p>漁業人權議題 Human right issues in fisheries</p>	<p>1. 針對遠洋漁船外籍船員聘僱及勞動條件，請問貴署目前依據國際標準(如 ILO C188) 進行相關政策及法規增訂相關情形？</p> <p>Regarding the employment and working conditions of foreign crew members on distant-water fishing vessels, may we ask about the current status of the competent authority's policy and regulatory developments in alignment with international standards, such as ILO Convention C188?</p>
