

Activity Report:

Skytracker Orientation

Date: May 26, 2025

Time: 12:30 PM – 02:00 PM

Venue: SFFAI Office, General Santos City

Attendees:

1. Jesame Enriquez (CAO Fisheries)
2. Justine Trisha Contreras (CPCC)
3. Shalimar Abdurahman (SFFAI)
4. Kiesheen May Contreras (CPCC)
5. Keven Lloyd Dipay (CPCC)

Objectives:

The objective of the Skytracker Orientation was to equip project stakeholders with the knowledge and skills to effectively use the Skytracker platform, which receives and displays real-time data from ALON VMS units installed on municipal fishing vessels. The orientation aimed to ensure that stakeholders could navigate the system, interpret tracking data, and integrate digital monitoring into their daily fisheries management activities. This initiative supports the broader goals of the FIP by enhancing traceability, promoting compliance, and strengthening transparency in municipal fishing operations.

Meeting Highlights:

1. As a follow-up to the installation of ALON Vessel Monitoring System (VMS) units on nine (9) municipal handline fishing vessels on May 24, 2025 in Maasim, Sarangani Province, the FFSAPI-SARGEN Handline Fisheries Improvement Project (FIP) facilitated a Skytracker Orientation on May 26, 2025.
2. The technical team from Navcast Asia provided a live demonstration of the Skytracker web-based platform. Key features introduced included:
 - Real-time map interface showing vessel positions
 - Trip history and route playback
 - Geo-fencing alerts and notifications
 - Account management and user access roles

3. Participants were given access to FIP account to practice using the system.

4. The orientation concluded with a discussion on how the Skytracker platform will be used by the vessel operators on their operations.
