Steering Committee Meeting held in 1 Dember 2025 where the revised Self-discipline Convention of Taiwan Hsin-Kang Mahi Mahi FIP was adopted and the request of raising observer coverage was discussed.

A meeting was held by Taiwan Mahi Mahi Fishery Association in late December 2025 where the FIP's Self-discipline Convention revised in early December was introduced, including the importance of observer deployment and where the practice of releasing bycatch species was promoted.

The documents (right – a summarized Self-discipline Convention revised in Dec. 2025 and bottom – improvement notice will be given if infringement is found) are the documents provided at the meeting held in late Dec. 2025.
