

VESSEL AND FISHING GEAR REGISTRATION UPDATE MARCH 2026

In the period of October 2025 to March 2026, APRI through its member and field support continued carried out the vessel and fishing gear registration in various locations, especially in Java.

West Java

APRI and Marine and Fisheries Agency of West Java Province Host Electronic Vessel Document (E-BKP) Service Outlet and Fishermen Vessel Measurement to Support Sustainable Fisheries on 9-10 October 2025 in Cirebon, West Java. The event was attended by various stakeholders, including processing units (UPI), fishermen, suppliers, the Port Authority of the Ministry of Marine Affairs and Fisheries (MMAF) at PPN Kejawanan, DKPP Cirebon, and DKP West Java. Their collective participation underscores a shared commitment to accelerating the issuance of E-BKP and maintaining a sustainable and legally compliant crab supply chain.

Central Java and East Java

While in Central Java and East Java, vessel and fishing gear registration also been conducted with collaboration with the Fisheries Agency and port authority.

Meetings regarding vessel and fishing gear registration also been carried out to make better coordination between the fisher communities, industries, port authorities, and marine and fisheries agency. Vessel and fishing gear registration are significantly improved through collaboration between stakeholders. APRI itself through field coordinator and its members, made a significant progress on registering the vessel and fishing gear.
