Magdalena Bay Shrimp – Fishery Improvement Project

Workplan 2017 – 2020

For the summer of 2020, the FIP aims at achieving a management performance in accordance to the MSC indicators for sustainable fisheries. This objective will be pursued by:

- Promoting a system for the continuous assessment of the shrimp populations targeted by the fishery
- Maintaining the fishery environmental impacts at the documented levels
- Achieving the supply chain’s full compliance with fishery regulations

**Develop a system for the continuous assessment of the shrimp populations targeted by the fishery**

- Development of a protocol for the fishery dependent and independent data collection
- Defining the assessment methodology and assessment task force
- Stocks assessments and review/adjust the harvest control rules and harvest strategy

- PRC: Coordination
- Northern Chef: Financing and convening

**Maintaining the fishery environmental impacts at the documented levels**

- Training workshops for producers on gear construction and operation
- Gear inspections and verification
- Fishery impacts monitoring

- PRC: Coordination
- Northern Chef: Financing and convening

**Promote the full compliance with fishery regulations by the supply chain**

- Develop of awareness materials for the supply chain
- Distribution and publication of awareness materials
- Impact assessment of the awareness process

- PRC: Content development and evaluation
- Northern Chef: Graphic design and Financing
